U.S. Lubricants Introduces THRIVE™ dexos1® Full Synthetic Engine Oil

U.S. Lubricants has introduced the new **THRIVE™ dexos1® Full Synthetic Premium Engine Oil**, an advanced passenger car motor oil designed to meet the needs of today's modern gasoline engines. The 5w20 and 5w30 grades are formulated with high technology additives and premium base oils to provide superior anti-wear protection and enhanced high temperature performance, resist oxidation breakdown longer and under the most extreme conditions and prevent sludge and dirt deposits. THRIVE™ dexos1® synthetic engine oils carry an incredible 10-year/300,000 mile Complete Engine Health™ warranty, are approved and licensed by GM, meet new car warranty requirements, and meet or exceed the industry engine performance requirements for API SN, Resource Conserving, and ILSAC GF-5.
