

SHEAR OIL Extreme Pressure Slide and Way Lubricant

Description

Shear Oil is an extreme pressure slide and way lubricant. It is formulated to adhere to the slide surface and minimize misting and throw off.

Shear Oil may also be used in industrial gear applications where AGMA EP 2 oil is specified.

Features/Benefits

- ✓ **Excellent Extreme Pressure Properties.**
- ✓ **Resistance to Oxidation and Rust.**
- ✓ **Non-corrosive.**
- ✓ **Excellent Corrosion Protection.**
- ✓ **Low Foam Tendency.**

Meets Performance Requirements of:

- ✓ U.S. Steel 224
- ✓ AGMA 250.04

Typical Physical and Chemical Specifications

Product Number	262
ISO Grade	68
API Gravity	29.7
Viscosity @ 100°C, cSt	8.5
Viscosity @ 40°C, cSt	68
Viscosity @ 100°F, SUS	320
Pour Point, typical	-20
Phosphorus % wt. typical	0.03
Sulfur % wt. typical	0.4
