Section 3. HAZARDS IDENTIFICATION

Physical State: Liquid
Color: Cloudy
Odor: Slight characteristic odor

EMERGENCY OVERVIEW
Warning! Causes eye and skin irritation. May be harmful if swallowed. May be harmful if inhaled. May be harmful if absorbed through the skin. Repeated exposure may cause liver and kidney damage.

Potential Health Effects
Serious health effects are not expected for healthy individuals.

Routes of Exposure:
Absorption, Eyes, Ingestion, Inhalation, Skin

**Target Organs**
Eyes, Skin, Respiratory system

**Eye Contact**
May cause: Irritation, experienced as mild discomfort. Blinking. Tearing. Slight redness

**Skin Contact**
May cause mild irritation.
Prolonged contact may be more severe. Prolonged contact may cause: Discomfort. Swelling. Tissue discomfort. Contact may cause: Sensitization. Allergic skin reaction in a small proportion of individuals.

**Skin Absorption**
Prolonged or widespread contact may result in the absorption of potentially harmful amounts of material

**Inhalation**

**Ingestion**

**Medical Conditions Aggravated By Exposure**

**Other**
Repeated overexposure may cause damage to the kidneys and liver. This product contains one or more amines, which may produce temporary and reversible hazy or blurred vision. Symptoms disappear when exposure is terminated.

**Cancer Information**
This product does not contain greater than 0.1% of the known or potential carcinogens listed in NTP, IARC, or OSHA.

**Potential Environmental Effects**
See Section 12

---

**Section 4. FIRST AID MEASURES**

- **Oral:** If swallowed, call a physician immediately. DO NOT induce vomiting unless directed to do so by a physician. Never give anything by the mouth to an unconscious person. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into the lungs.
- **Eye:** Immediately flush eyes with plenty of water for at least 15 minutes while holding eyelids open. Tilt head to avoid contaminating unaffected eye. Get immediate medical attention.
- **Skin:** Immediately flush skin with plenty of water while removing contaminated clothing and shoes. Do not reuse clothing or shoes until cleaned. If irritation develops or persists, get medical attention. Wash with soap and water.
- **Inhalation:** Remove to fresh air. Get medical attention if breathing becomes difficult or respiratory irritation occurs.

### Section 5. FIRE FIGHTING MEASURES

**Flash Point:** No flash at 200 degrees.  
**Upper Flammable Limit:** Not Determined  
**Lower Flammable Limit:** Not Determined  
**Extinguishing Media:** Water spray, dry chemical or carbon dioxide  
**Special Firefighting Procedures:** Evacuate area of unprotected personnel. Wear protective clothing, eye protection and NIOSH approved respiratory equipment  
**Unusual Fire and Explosion Hazards:** Process Hazard: Sudden release of hot organic chemical vapors or mists from process equipment operating at elevated temperature and pressure or sudden ingress of air into hot equipment under vacuum, may result in ignitions without the presence of obvious ignition source. Published “auto ignition” or “ignition” temperature values cannot be treated as safe operating temperatures in chemical processes without analysis of the actual process conditions. Any use of this product in elevated-temperature processes should be thoroughly evaluated to establish and maintain safe operating conditions.  
**Auto-ignition Temperature:** Not Determined  

### Section 6. ACCIDENTAL RELEASE MEASURES

**Spill Procedures:** Evacuate unprotected personnel from area. Maintain adequate ventilation. Follow personal protective equipment recommendations found in section 8. Never exceed any occupational exposure limit.  
Contain spill, place into drums for proper disposal. Soak up residue with inert absorbent material. Flush remaining area with water to remove trace residue and dispose of properly. Avoid direct discharge to sewers and surface waters. Notify authorities if entry occurs.

### Section 7. HANDLING AND STORAGE

**Handling Procedures:** Avoid contact with eyes, skin, and clothing. Use with adequate ventilation. Do not swallow. Avoid breathing vapors, mists, or dust. Do not eat, drink, or smoke in work area. Wash thoroughly after handling.  
**Storage Procedures:** Store in a cool, dry place. Keep away from incompatible materials such as oxidizers. Keep containers tightly closed. Do not store in unlabeled or mislabeled containers. Store in a well-ventilated area.

### Section 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Engineering Controls**  
General room ventilation is required. Use at elevated temperatures, or aerosol/spray applications, may require additional control measures such as local exhaust ventilation. Maintain adequate ventilation. Do not use in closed or confined spaces. Avoid creating dust or mist. Keep levels below exposure limits. To determine exposure levels, monitoring should be performed regularly.
Respiratory Protection
Respiratory protection must be worn if ventilation does not eliminate symptoms or keep levels below recommended exposure limits. If exposure limits are exceeded, wear NIOSH approved air purifying respirator. NISOSH approved self-contained breathing apparatus. Do not exceed limits established by the respirator manufacturer. All respiratory protection programs must comply with OSHA 29 CFR 1910.134 and ANSI Z88.2 requirements and must be followed whenever workplace conditions require a respirator’s use.

Eye/Face Protections
Wear chemical safety goggles while handling this product. Wear additional eye protection such as a face shield when the possibility for eye contact with splashing or spraying liquid, or airborne material. Do not wear contact lenses.

Skin Protection
Prevent contact with this product. Wear gloves and protective clothing depending on condition of use. Protective gloves: Chemical resistant, rubber apron, butyl rubber

Other Protective Equipment

General Hygiene Considerations
Wash with soap and water before meal times and at the end of each work shift.

Section 10. STABILITY AND REACTIVITY

Stability: Stable under normal conditions

Hazardous Polymerization: Will not occur under normal conditions

Hazardous Decomposition: Carbon oxides, nitrogen oxides, ammonia, aldehydes, ketones, unidentifiable organic materials

Conditions to Avoid: Do not mix this product with nitrites or other nitrating agents because of nitrosamine may be formed. Nitrosamines may cause cancer

Incompatibility: Acids, strong oxidizing agents, strong bases, aldehydes, ketones, carbon oxide, ammonia, acrylates, organic anhydrides, organic halides, copper, brass, aluminum

Food sugars. Deadly carbon monoxide gas can form in enclosed or poorly ventilated areas or tanks when alkaline products contact food, beverage or dairy products. Do not enter such areas until they have been well ventilated and carbon monoxide and oxygen levels have been determined to be within OSHA
acceptable limits. If carbon monoxide and oxygen levels cannot be determined, wear NIOSH approved, self-contained breathing apparatus.

Section 11. TOXICOLOGICAL INFORMATION

LD 50 Oral: No Data
LD 50 Skin: No Data
LD 50 Inhalation: No Data

Section 12. ECOLOGICAL INFORMATION

Ecotoxilogical Information: No data available
Chemical Fate Information: No data available

Section 13. TRANSPORTATION INFORMATION

Hazardous Waste Number:
NA

Disposal Method
Dispose of in permitted hazardous waste management facility following all local, state and federal regulations. Since emptied containers train product residue, follow label warnings even after the container is empty. Do not pressurize, cut, weld, solder, drill, grind or expose empty containers to heat, flame, sparks, or other sources of ignition. Disposal methods identified are for the product as sold. For disposal of used solution, all local, state and federal regulations must be followed.

Section 14. WASTE DISPOSAL INFORMATION

DOT Proper Shipping Name Unclassified
Hazard Class Not Regulated
Identification Number Not Regulated
Packing Group Not Regulated
Label Required Not Regulated
Reportable Quantity NA

Note: This material is not DOT regulated in shipments less than 10,144 pounds.

Section 15. REGULATORY INFORMATION

U. S. TSCA Inventory: All components of this product are listed on the TSCA Inventory or are exempt from TSCA inventory requirements.

SARA Title 111 Section 311/312 Category
