

BAR & CHAIN OIL

Premium Grade Chain Saw Bar Oil

Description

Bar & Chain Oil is a premium grade chain saw bar oil. It is separated from conventional products by its superior adhesion properties. This is due to the addition of a unique tackifier additive not contained in most lubricants. The addition of this additive results in less oil sliding off the chain during saw operation and reduced oil consumption.

In addition, the base oils in **Bar & Chain Oil** have been carefully selected to ensure good performance at low temperature plus they have the ability to dissolve pitch and sap.

Bar & Chain Oil is available in both summer and winter grades.

Features/Benefits

- ✓ **Lower Cutting Chain Temperature as the Teeth Remain Sharper Longer**
- ✓ **Protects the Guide Bar and Chain from Rusting**
- ✓ **Tackiness Additives Impart Better Retention of Oil on the Chain, Bar and Drive Sprockets**
- ✓ **Effective Anti-wear Agents Reduce Wear in the Critical Areas and Optimize the Life of the Saw and its Chain**
- ✓ **Special Additives Reduce the Pitch Build-up on the Chain and Drive Sprocket Reducing Maintenance and Down Time**

Physical & Chemical Properties

Product Name	Winter Grade	Summer
Product Code	211	210
Viscosity @ 40°C, cSt	46	100
Viscosity @ 104°F, SUS	210	460
Pour Point, °F	0	15
